

Contents – Volume VII

Number 1

D. MARASINI, S. MIGLIORATI On the use of inferential confidence intervals	p.	3
R. BORGONI, P. QUATTO On the uniformly most powerful invariant test for the shoulder condition in line transect sampling	»	15
M. IANNARIO A comparison of preliminary estimators in a class of ordinal data models	»	25
A. PLAIA, S. BOLOGNA A new OLS-based procedure for clusterwise linear regression	»	45
L. BAGNATO Nonparametric ARCH with additive mean and multiplicative volatility: a new estimation procedure	»	63
M. MAROZZI, L. SANTAMARIA Multivariate nonparametric testing for comparing sector credit risk	»	77
R. ARBORETTI GIANCRISTOFARO, S. BONNINI Nonparametric directional tests in the presence of confounding factors and categorical data	»	87

Number 2

Editorial	»	111
M.G. ZOIA A mother formula for econometric estimation, the issue of parent linear models of best-fit solutions and its dual problem	»	113
M.T. ALODAT, N.A. AL-ODAT, M.AL-RAWWASH, T.T. ALODAT Moving extreme ranked set sampling for simple linear regression	»	135

C. QUINTANO, R. CASTELLANO, S. LONGOBARDI A fuzzy clustering approach to improve the accuracy of Italian student data. An experimental procedure to correct the impact of outliers on assessment test scores	»	149
L. DALLA VALLE, G. NICOLINI Statistical analysis of the internationalisation of Italian small and medium sized enterprises	»	173
I. SANTINI Italian household debt over the business cycle (1998-2004)	»	191
M. KOSNY, E. MAZUREK Redistribution and equity of polish personal income tax: measurement using micro data from tax returns	»	211
P. ARUMUGAM, D. VENKATESAN, M. VIJAYAKUMAR, M. GALLO Bayesian analysis of change point problem in autoregressive model: a mixture model approach	»	223
